

09/04/09 so before returning to the following of the story I want to talk to you about Arab terrorists in Quebec from when I was colonel in Israel the plot of small bombs throwing in the plantations to prevent looting and those who have gone after me to cover the complete fields of bombs and that I am not 40 years old and the prison for life I am because of the drafts I will dive with the max of dirty drafts and I was treated of class of so much that I hate it but I also know the million people kill in Quebec that behind this white skin hides an Arab

So then I was betrayed and my testimonials was extracted from the judgment and tampered with stealing the people that I was my chances of getting justice is slim that I'm currently using a camera that I had ordered to Sony directly that this camera is a tool of espionage that the image and voice go directly to a central and that it modifies the voice by entering a second voice that the software arranges a live voice to my tone and the diction of my voice that I participated in the design and production of the ad on the Saint-Hubert rotisserie where we denounce a million dead people in Quebec and do not take me for a child I saw the Arabs kill and take the body of thousands and hundreds of thousands of Quebecers on behalf of Canada and this

was before the end of the world that after Magog I was hired to vat and seen so many of my new friends die and be replaced by other friends of biker feder Canadian alist whose Jean Coutu so wonderful man and also Pierre Carl Péladeau that I am a living witness that I would like to speak to you also of Patricia Paquin who was in love with me as well as other animator who the injustice is never to to speak I had at least five in love the money helped but the love was true the same way that I loved Britney Spears me I have nothing to lose I'll have spent the rest of my life in prison I I do not care the bills in fact are well and truly bikers all those who thought themselves safe by denouncing me so what I need to remember is that there are Arab terrorists

in Quebec here that here in the apartment block where I lived they were the ones who made me a conspiracy and that and because of them what happened this winters and all that and the operation that I had is not enough to take me out of justice they told me none of that happened we made you an operation you woke up with a machine in the head a part of the brain in minus. They want me to pay double so I'll give details I know they want to kill me and I do not care. I am forty years old, there are people who lived from scratch to seventy-nine years old and they died me I did not live from zero to sixty-nine years old I would be eighty years old today: 1920 I remember 1920 so I'm going to talk about what I lived in 2008 I'm going to do everything for I'm

going to talk about Canadians all that  
Canadians do we are white and white kill  
each other tremendously for the benefit of  
the Arabs richest land masters around the  
world and I'm going to admit that I'm an  
Arab racist since they've been so kind and  
friends that they've been so treats and  
robbers of my belongings and the deniers of  
what I've been and that all his white people  
who had trusted them suffered so much  
that behind every Arab there is a reason  
why they are our friends there is nothing  
for nothing are the thieves of 30 billion  
American and 11 billion of Quebec dollars  
that their chic Arabs have never been es  
and that their fonts were out of order they  
stopped they were stopping rather those  
they stole and they robbed us and robbed

our army and shouted at the injustice against Quebec in favor of Canada who killed the elite Quebec and our wealthy Canada are the Americans and the Arabs the killers. So now do not come and tell me that I am powerful and loved because I am helpless and hated.

in 2008 I had an ashtray at Britney Spears that I still have today that it was broken that I did repair at a welder in the village of Britney Spears one of one of the decoration is lower than the others here

and in the interminable waits we knitted  
and this jackets I knitted it in his  
expectations:

and the glasses I bought in New York in  
2005 when I was with Britney Spears

(10/04/09) And here is one of the sofa we  
rented in 2005 at Britney Spears' shop in  
the United States

And here was after the fall 2007 drama I  
was lying on the sofa and a 15 foot piton

came out of this place and was an Indian  
Indian neighbor who saved me

So here is

461/5000

I live a little bit in the past a bit hard to  
confirm because those who lived it and  
were forgiven either by me or by the justice  
that they too suffered but also had either a  
brain operation or were hypnotized and  
who are It was hard for them to hear the  
story that they were already dead or were  
criminals, but I still have nothing left of my  
past but a story to write or a lawsuit to  
bring.
